

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

A journey towards standardization of outcome measures in children with cerebral palsy

Lead Author: Joel Anison, Organization: Hamad Medical Corporation

A method to implement POCT devices & connectivity within ideal time

Lead Author: Jaham Shada Habib Said, Organization: Heart Hospital - HMC

A multifactor examination of nursing job satisfaction at Rumailah Hospital

Lead Author: Johncy Paulose, Organization: Rumailah Hospital - HMC

A nurse led clinical pathway for dialysis vascular access dramatically improves outcomes

Lead Author: Thandiwe Ngcobo, Organization: SEHA Dialysis Services, Abu Dhabi, UAE

A paradigm shift from blame to fair just culture - a Middle East hospital experience

Lead Author: Mamoon Ibrahim Abu Haltem, Organization: Tawam Hospital, Al Ain, UAE

A project on improving hospital discharge planning

Lead Author: Arlene Daclison, Organization: Taiba Hospital, Kuwait

A project on improving the adherence to hand hygiene among TAIBA doctors

Lead Author: Aziza Zaghloul, Organization: Taiba Hospital, Kuwait

Achieving maximum potential together using interdisciplinary approach in acute care rehabilitation

Lead Author: Jisha Elizabeth Mathew, Organization: Hamad Medical Corporation

Active methicillin resistant staphylococcus aureus (MRSA) screening for elective cesarean section surgeries in Al Wakra Hospital

Lead Author: Amna Khalifa Tellisi, Organization: Al Wakra Hospital - HMC

Acute geriatric service: a simple innovation that has made big difference

Lead Author: Hanadi Al Hamad, Organization: Hamad Medical Corporation

An innovative NICU parent support programme to improve parental coping

Lead Author: Roshna Abdul Jaleel, Organization: Hamad Medical Corporation

CCITP, the Qatari experience of engaging clinicians in clinical quality

Lead Author: Shakil Ahmed, Organization: HMC-MARA

Central line blood stream infections in CCU

Lead Author: Sonimol Chandy, Organization: King Fahad Medical City

Changing nursing practice

Lead Author: Merry-Jo Levers, Organization: University of Calgary - Qatar

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

Cold chain international regulations in HMC

Lead Author: Tarek Khary, Organization: Hamad Medical Corporation

Comparison and ranking of quality improvement training expectations of healthcare staff

Lead Author: Ihab Seoudi, Organization: Hamad Medical Corporation

Congestive heart failure

Lead Author: Hajer Abdulla, Organization: Hamad Medical Corporation

COPD patients' satisfaction with the quality and methods of current delivered information by health care providers at Hamad Medical Corporation; focused insight into patients' voice to improve quality of services

Lead Author: Mouath Al-Tamimi, Organization: Kingston University & St. Georges's University of London

Cost analysis of bedside percutaneous tracheostomy for effective resource utilization in trauma intensive care unit: HMC experience

Lead Author: Ashok Parchani, Organization: Hamad General Hospital

Creating a culture of quality in education, preparing for international accreditation

Lead Author: Fiona Milligan, Organization: Hamad Medical Corporation

Decreasing number of short notice cancellation of operations for urology/Male Infertility Team

Lead Author: Mohamed Mostafa Arafa
Hamad Medical Corporation

Driving towards a safer culture - the starting of a program of informal patient safety walkrounds

Lead Author: Alison Bello, Organization: Hamad Medical Corporation

3 E's strategy to prevent clostridium difficile

Lead Author: Feah A. Altura, Organization: Hamad Medical Corporation

Effect of fast track in-patient rehabilitation programme on bed turn-over rate & average length of stay

Lead Author: Wafa Al Yazeedi, Organization: Hamad Medical Corporation

Effect of pediatric home care service on patients with parental nutrition: reducing CLABSI

Lead Author: Elizabeth Benny Thottmkal, Organization: Hamad Medical Corporation

Effects of 10% and 15% carbamide peroxide bleaching procedures on tooth sensitivity - a systematic review

Lead Author: Suhayla Reda Albanai, Organization: Hamad Medical Corporation

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

Effects of an oral hygiene program on the prevalence of good oral hygiene in a long-term care facility

Lead Author: Sudha Rathinam, Organization: Skilled Nursing Facility, Rumailah Hospital - HMC

Efficacious strategy for dynamic assessment of patient safety culture within hospital, adopted from AHRQ hospital survey on patient safety culture

Lead Author: Ahmed AL-adawy, Organization: General Directorate of Health Affairs Makkah Region - Ministry of Health

Employee perceptions of patients safety culture in the National Center for Cancer Care and Research and Heart Hospital

Lead Author: Ahmad Saad, Organization: Hamad Medical Corporation

Endoscopy lean journey

Lead Author: Anastasia Sayegh, Organization: Lecturer in CI at multiple universities. Beirut, Lebanon

Enhancing qualitative improvement culture assessment tools using statistical methods

Lead Author: Nicola Dymond, Organization: Hamad Medical Corporation

Enhancing standard clinical care of patients after shoulder dystocia

Lead Author: Nadia Al Mulla, Organization: Womens Hospital - HMC

Enhancing the care of pregnant diabetic women in Qatar

Lead Author: Faten El AtherMohd Taha, Organization: Womens Hospital - HMC

Establishing pre-assessment surgical screening clinic (PASS) to optimize or utilization

Lead Author: Badriya Al Shamari, Organization: Rumailah Hospital - Hamad Medical Corporation

Establishment and achievement of complex care clinic

Lead Author: Showbeez Pallam, Organization: Hamad Medical Corporation

Evaluation of the readability and comprehensibility of package inserts for antidiabetic medications available in the Middle East

Lead Author: Emad Eldin Munsour, Organization: Supreme Council of Health

"Fistula First ": promote the use of permanent vascular access (AVF/AVG) in all suitable dialysis patients and decrease the prevalence of central venous catheter in HGH dialysis facilities

Lead Author: Fadwa S. Al-Ali, Organization: Hamad General Hospital - HMC

Hand to hand together, speak up freely: electronic incident reporting system (EIRS)

Lead Author: Raiefa Qaddoura, Organization: Hamad Medical Corporation

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

HGH ICU multidisciplinary round quality improvement

Lead Author: Majed Hijeh, Organization: Hamad Medical Corporation

Home health care diabetic foot education, examination and treatment (feet) project

Lead Author: Alphonsa Augustin, Organization: Hamad Medical Corporation

Home health care team intervention to reduce the risk of catheter-associated urinary tract infection, staff education, monitoring, and catheter care techniques at Qatar

Lead Author: Navas Nadukkandiyil, Organization: Hamad Medical Corporation

How small change can make a big difference for kids and parents

Lead Author: Masoud Akhavan Borna, Organization: Hamad Medical Corporation

Impact of antimicrobial prophylaxis compliance and chlorhexidine utilization for skin preparation in reducing surgical site infection amongst appendectomy surgeries

Lead Author: Feah A. Altura, Organization: Hamad Medical Corporation

Impact of antimicrobial prophylaxis compliance and chlorhexidine utilization for skin preparation in reducing surgical site infection amongst appendectomy surgeries, Al Wakra Hospital - 2013

Lead Author: Jenalyn Castro, Organization: Al Wakra Hospital - HMC

Impact of clinical pharmacist interventions on reduction of inappropriate proton pump Inhibitors (PPIs) use in Home Health Care Services (HHCS)

Lead Author: Osama Hamour, Organization: Home Health Care Services - HMC

Impact of hyperbaric oxygen in osteoradionecrosis patients in King Faisal Specialist Hospital & Research Center

Lead Author: Elvira Sabinorio, Organization: King Faisal Specialist Hospital & Research Centre

Implementation & sustainability of daily safety briefings in 5South1 to promote patient safety culture

Lead Author: Samina Khan, Organization: Hamad Medical Corporation

Implementation of a structured multidisciplinary early referral for acute stroke rehabilitation

Lead Author: Jidesh Viswambharan, Organization: Hamad Medical Corporation

Implementation of arts and healing project for hospitalised children

Lead Author: Judith Nelmes, Organization: Hamad General Hospital - HMC

Implementation of safe approved international standard: CT head scan in infants without sedation

Lead Author: Ahlem Jouini, Organization: Hamad Medical Corporation

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

Implementation of surgical safety checklist at HMC

Lead Author: Moza A Latif Al Ishaq, Organization: Hamad Medical Corporation

Implementing evidence-based practices in achieving zero tolerance CLABSI rates in Heart Hospital CTICU

Lead Author: Ma. Leni B. Garcia, Organization: Heart Hospital - HMC

Implementing strict infection control measures in prevention and control of clostridium difficile in Heart Hospital

Lead Author: Bency Lukose, Organization: Hamad Medical Corporation

Implementing the evidence: couplet care journey

Lead Author: Nicetas Pascual, Organization: King Abdulaziz Hospital, Al Ahsa, KSA

Implementing unit based nursing practice committees-pediatrics

Lead Author: Gregory Malt, Organization: Hamad Medical Corporation

Improve the patient education process at Labib Medical Center by using a standardized approach

Lead Author: El Sayar Gemma

Improved patient outcome by reduction in post-operative bleeding and length of stay in cardiac surgery patients

Lead Author: Cornelia Carr, Organization: Heart Hospital - HMC

Improved the antenatal and postnatal patient outcomes by creating a highly effective and collaborative women's hospital multidisciplinary teams

Lead Author: Mohini Abreo, Organization: Hamad Medical Corporation

Improvements to the pathway for patients with a suspicion or diagnosis of cancer

Lead Author: Sara Jayne Campalani, Organization: Hamad Medical Corporation

Improving asthma management: a focus on asthma control in pulmonary outpatient clinics

Lead Author: Aisha Hussain, Organization: Hamad Medical Corporation

Improving care in dermatology urgent care clinic

Lead Author: Hanan Almaslamani, Organization: Hamad Medical Corporation

Improving compliance with documentation and counselling guidelines during induced labour

Lead Author: Nadia Al Mulla, Organization: HMC Womens Hospital

Improving critically injured patient's outcomes through medical education in Qatar

Lead Author: Ruben Peralta, Organization: Hamad Medical Corporation

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

Improving diabetes care in elderly homecare population

Lead Author: Wahila Alam, Organization: Hamad Medical Corporation

Improving NCCCR patient access to day care services for oncology & hematology treatment

Lead Author: Mariamma Daniel, Organization: HMC – NCCCR – DCU

Improving paramedic-delivered CPR – A novel way to investigate current performance

Lead Author: Kevin Govender, Organization: HMC Ambulance Service

Improving patient comfort in time of distress: Management of pain in the pre-hospital setting

Lead Author: Guillaume Alinier, Organization: Hamad Medical Corporation

Improving patient flow in Male Urgent Area, MUA

Lead Author: Yousif Mohd. Eltayeb, Organization: Hamad Medical Corporation

Improving quality, safety and feasibility of the appointment-booking model for radiotherapy patients

Lead Author: Mohamed Riyas, Organization: HMC, Department of Radiation Oncology

Improving registered nurse medical doctors communication

Lead Author: Abimbola Akomolafe, Organization: King Faisal Specialist Hospital and Research Center, Riyadh, KSA

Improving skills and building confidence among parents of medically complex children: a success story

Lead Author: Lillykutty Joseph, Organization: HMC – Rumailah Hospital

Improving the clinical handover process of patients in the resuscitation room, ED, HGH

Lead Author: Muhammad Abid, Organization: Hamad Medical Corporation

Improving the involvement of the families in the management plan

Lead Author: Karim Bekri, Organization: Hamad Medical Corporation

Improving the response of the pediatric code blue team

Lead Author: Magda Wagdy, Organization: Hamad Medical Corporation

Improving the role of the nurses in interdisciplinary rounds in PICU – Hamad General Hospital

Lead Author: Leena Varghese, Organization: Hamad Medical Corporation

Improving time of first dose of antibiotics in neonates admitted to NICU from LR/OT in Women's Hospital

Lead Author: Hilal Alrifai, Organization: Womens Hospital – HMC

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

Improving turnaround time of first dose IV antibiotic in pediatric inpatient units (2N1, 2N3) in HGH

Lead Author: Shabina Khan, Organization: HMC General Pediatrics

Improving utilization of sucrose for minor procedural pain management in neonatal intensive care unit

Lead Author: Mohamad Adnan Mahmah, Organization: Hamad Medical Corporation

Improving vaccination rate in elderly by implimenting Geriatric Vaccination Programme

Lead Author: Shahada Rabah Al Kahlout, Organization: Hamad Medical Corporation

Incidence and predictors of postoperative infection in acute achilles tendon rupture repair at Hamad General Hospital, Doha, Qatar

Lead Author: Sameh M. Abolfotouh, Organization: Hamad Medical Corporation

Increasing timely discharge in the Pediatric Department

Lead Author: Amira Mustafa, Organization: Hamad Medical Corporation

Influenza immunization coverage for healthcare workers of a community hospital in qatar

Lead Author: Ariadna Arias, Organization: The Cuban Hospital - HMC

Introduction of client flow in Caritas Baby Hospital, Bethlehem

Lead Author: Lana Rishmawi, Organization: Caritas Baby Hospital Bethlehem Palestine

Lean (5S) for radiology storage room

Lead Author: Ehab Ababneh, Organization: King Faisal Hospital and Research centre-Jeddah Branch

Limiting access to concentrated electrolytes: a multidisciplinary approach to improving patient safety at the Kuwait Cancer Control Center (KCCC)

Lead Author: Ahmed M ElSheashaey, Organization: Kuwait Cancer Control Centre

Managing cancer pain: The palliative care approach

Lead Author: Azza Hassan, Organization: HMC NCCCR

Master key of communication: Smile

Lead Author: Omer Saad Ali Eltoum, Organization: Primary Health Care Corporation, Qatar

Quality improvement system in Medicine Department, HGH

Lead Author: Sajith G. Pillai, Organization: Hamad Medical Corporation

Reduce number of cancelled nuclear medicine exams due to improper preparations

Lead Author: Nedal Hamed Alkhawaldeh, Organization: King Faisal Specialist Hospital & Research Center (KFSH&RC) Jeddah, KSA

Reduce the rate of delinquent medical charts in NCCCR

Lead Author: Ruba Y. Taha, Organization: Hamad Medical Corporation

Reduce VAP to Zero in SICU

Lead Author: Mohammad Faisal, Organization: Hamad Medical Corporation

Reducing average length of stay on mechanical ventilation in Medical ICU

Lead Author: C. Damodaran, Organization: Hamad Medical Corporation

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

Reducing central line associated blood stream infection (CLABSI) ICU's Heart Hospital

Lead Author: Shiny Shiju, Organization: Heart Hospital, HMC

Reducing high CLABSI rate among NCCCR oncology and hematology in-patients

Lead Author: Joanne Daghfal, Organization: Hamad Medical Corporation

Reducing hospital acquired pressure ulcer rate by introducing pressure ulcer prevention bundle

Lead Author: Mohamad Yahya Khatib, Organization: Hamad Medical Corporation

Reducing incidence of post sedation nausea & vomiting in oncology/hematology patients

Lead Author: S. Sivagnanam, Organization: Hamad Medical Corporation

Reducing neonatal extubation failure through best practice guidelines

Lead Author: Syed Shoeb Hashmi, Organization: Hamad Medical Corporation

Reducing neonatal extubation failure through best practice guidelines

Lead Author: Saira Sattar Bhutta, Organization: Hamad Medical Corporation

Reducing post-operative obstetric hemorrhage

Lead Author: Smitha Joel, Organization: Women's Hospital - HMC

Reducing the no show rate

Lead Author: Sona Fayed Tahtamouni, Organization: Hamad Medical Corporation

Reducing the number of elective cesarean sections starting after working hours

Lead Author: Abdel Rahman Magzoub, Organization: Womens Hospital - HMC

Reducing the number of sub-optimal blood sample (hemolyzed, clotted and quantity not sufficient) in NCCCR

Lead Author: Emelita Jose Ison, Organization: NCCCR - HMC

Reducing the Rate of Central Line Associated Blood Stream Infection (CLABSI) in the MICU: clinical microsystem project

Lead Author: Hani Jaouni, Organization: Hamad Medical Corporation

Reducing the risk of venous thromboembolism in hospitalised patients under gynecology service

Lead Author: Vijay Kumar Ahuja, Organization: Women's Hospital - HMC

Reducing Ventilator Associated Pneumonia (VAP) ICU's Heart Hospital

Lead Author: Mincy Shaji, Organization: Heart Hospital - HMC

Reduction of central line associated blood stream infection

Lead Author: Peter Vic Solitario, Organization: Hamad Medical Corporation

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

Research - Is it a boon for current day quality clinical practice?

Lead Author: Jaikumaran Pandian, Organization: Hamad Medical Corporation

Root cause analysis of sharps injuries sustained by nurses in a Tertiary Hospital

Lead Author: Wong Shiu Hong, Organization: Singapore General Hospital

Saudi adverse event reporting system

Lead Author: Wa'ad Hasan Alkathiri, Organization: SBAHC Riyadh KSA

Say Yes to breastfeeding initiative. Defining future health quality improvement & patient safety

Lead Author: Mohammed Ilyas Khan, Organization: Hamad Medical Corporation

SBAR - Enhancing effective team communication for patient safety

Lead Author: Akram Assaf, Organization: Hamad Medical Corporation

SCAR

Lead Author: Aysha John, Organization: Taiba Hospital, Kuwait

Small change of practice: can testing all patients for diabetes improve patient safety?

Lead Author: Albert Tabunda, Organization: Hamad Medical Corporation

Successful continuum of Pediatric Intravenous (IV) therapy team HGH-2N2

Lead Author: Masouda Mohammed, Organization: Hamad Medical Corporation, HGH

Surgical Safety Checklist "Improve compliance with proper use of safety checklist"

Lead Author: Mohammed Shaffi Mahate, Organization: Hamad Medical Corporation

Synchronized multidisciplinary team approach to reduce patient waiting time of chemotherapy treatment in outpatient treatment Unit (O.T.U) KFMC

Lead Author: Abdullah Bany Hamdan, Organization: KFMC, Riyadh, KSA

The effect of metal surface treatment before reporcelainization for ceramic repair after adhesive fracture of ceramo-metallic restoration

Lead Author: Suhayla Reda Albanai, Organization: Hamad Medical Corporation

The skin saver's journey in preventing pressure ulcers in the ICU

Lead Author: Aamina Khan, Organization: King Fahad Medical City

The trauma & surgery quality and patient safety program. The Qatar Experience

Lead Author: Ruben Peralta, Organization: Hamad Medical Corporation

Middle East Forum on Quality and Safety in Healthcare 2014

Empowering Patient Care Improvement

25-27 April 2014, QNCC, Doha, Qatar

The use of a structured multidisciplinary handoff template during nursing endorsement; impact on patient safety

Lead Author: Ligy Roy, Organization: Rumailah Hospital - HMC

Thromboprophylaxis in hospitalized cancer patients

Lead Author: Rehab Abd El-Khlak, Organization: NCCCR - HMC

Trauma service sustains performance improvement initiative with missed injury rate in comparison to published int data

Lead Author: Hushan Abdulrahman, Organization: Hamad General Hospital

Triangle of integrated care "science of breastfeeding, maternal medication & patient safety"

Lead Author: Mohammed Ilyas Khan, Organization: Hamad Medical Corporation

Using multiple criteria decision analysis framework to appraise relocation site options for child development services and children with complex & long-term health care needs

Lead Author: Haitham Elbashir, Organization: Hamad Medical Corporation

Utilizing SMART technology for quality data collection at the bed side

Lead Author: Faten Shahab Eddeen, Organization: King Faisal specialist Hoapital and Research Center

Venous thromboembolism (VTE) prevention

Lead Author: Alan William Lawler, Organization: Hamad Medical Corporation, Center for Healthcare Improvement

Weaving a blanket of success

Lead Author: Sini Vijayakumari, Organization: Al Ain hospital UAE

What we do to enhance patient experience at AWH

Lead Author: Khalil Salamah, Organization: Al Wakra Hospital - HMC

Wound care walk-in clinic with the motto "Illness prevention and reduce readmission" post cardiac surgery

Lead Author: Sunitha Mathew, Organization: Hamad Medical Corporation
