

Project 1

Title: Prevention of pre-eclampsia using metformin: a randomized control trial (PREMET)

Type of research: Clinical Research

Study Lead details: Name: Mahmoud Gasim Mahmoud Mohd

Email id: MMOHD13@hamad.qa

Contact No: 55811027

Recruitment Started: Yes

Project 2

Title: Programmed Intermittent Epidural Bolus (PIEB) techniques for labour analgesia; finding the optimum combination

Type of research: Clinical Research

Study Lead details: Name: Dr. Roshan Fernando

Email id: RFernando1@hamad.qa

Contact No: 50595464

Recruitment Started: On Hold

Project 3

Title: Bladder cancer and clinical ambiguity: unravelling tumor heterogeneity using single cell sequencing analysis Molecular biology

Type of research: Biochemistry- Basic Science

Study Lead details: Name: Mahmoud Gasim Mahmoud Mohd

Email id: MMOHD13@hamad.qa

Contact No: 55811027

Recruitment Started: Yes

Project 4

Title: Outcome Of In Vitro Fertilization After Supplementation Of The Female Partner With Antioxidant Fh Pro

Type of research: Clinical Research

Study Lead details: Name: Dr. Shima Elbakhit M E Albasha

Email id: SALBASHA@hamad.qa

Contact No: 66087561

Recruitment Started: Yes

Project 5

Title: Will peri-operative forced air-warming during elective Caesarian section under spinal anesthesia prevent maternal and fetal hypothermia?

Type of research: Clinical Research

Study Lead details: Name: Dr. Eynas Omer Ibrahim Abdalla

Email id: EABDALLA1@hamad.qa

Contact No: 66873179

Recruitment Started: Yes

Project 6

Title: A Comparative study of supine position and the head elevated position on the level of sensory block after spinal anesthesia in morbidly obese parturient undergoing elective cesarean delivery -- MRC-01-20-792

Type of research: Clinical Research

Study Lead details: Name: Dr. Hayat Elfil

Email id: HElfil@hamad.qa

Contact No: 50444882

Recruitment Started: No

Project 7

Title: Sonographic assessment of diaphragmatic parameters at the time of extubation in ventilated neonates: A prospective Observational study

Type of research: Clinical Research

Study Lead details: Name: Dr. Ashraf Ibrahim Gad

Email id: AGad2@hamad.qa

Contact No: 33695082

Recruitment Started: No

Project 8

Title: Lung Ultrasound Score To Evaluate The Need For Surfactant Therapy And Predicting Escalation Of Respiratory Support In Preterm Neonates With RDS in Local Qatar Population

Type of research: Clinical Research

Study Lead details: Name: Dr. Sarah Mohy Eldeen Mohy Eldeen Mohd Ahmed

Email id: SAhmed88@hamad.qa

Contact No: 66467276

Recruitment Started: Yes

Project 9

Title: A prospective study on ultrasonographic measurement of the spinal canal depth in premature infants less than 1000g weight

Type of research: Clinical Research

Study Lead details: Name: Dr. Jihad Al Shouli

Email id: JAlShouli@hamad.qa

Contact No: 33941708

Recruitment Started: No
