and Residential Care, Dermatology.

Mental health services

We play a leading role in the delivery of care for people with a mental illness. Guided by Qatar's National Mental Health Strategy, we are working with partners in Qatar to develop a high-quality mental health system and transform the way mental illness is perceived and treated.

Residential and home care

Caring for partially or long-term dependent patients outside a hospital setting is of great importance. Specialized residential care compounds and the Home Healthcare Service all provide services for patients with specialist care needs.

Dental service network

Our Hamad Dental Center governs the Dental Service Network across our hospital network. The Hamad Dental Center works closely with our general hospitals to ensure strategic dental services are operating in Al Khor, Al Wakra and The Cuban hospitals.
